<b>Deposit:</b>	20% of annual tuition

\* Prior to registering, all Kindergarten/Elementary grade students are tested by a professional service recommended by the school. These tests provide an understanding on the child's strengths, academic and social skills, learning style, and the child's individual method of processing information. This will help teachers develop an ability-based curriculum that responds to the unique characteristics of your child.

**Premier Learning Centers**

These fast-track programs help each child acquire the academic skills, study habits and problem solving strategies needed to make scholastic progress:

- **Mathematics and Economics:** Children revisit mathematical concepts learned, are trained to reason through logic, and become familiar with the concepts and uses of "value" and "money" through fun-filled budgeting exercises.

- **Language:** Students are given a placement test to create an individualized reading and language program that will help them accelerate their scholastic progress while building their self-esteem.

**Summer Young Scholar Program**

Research indicates that 30% of material earned will be forgotten during summer periods unless reinforced through continuous learning. Our program allows children to strengthen their academic skills by focusing on mathematics, language, and confidence building exercises. Enrollment in this program is very limited.
